State Snapshot of Specific Learning Disabilities

US Public School Enrollment, 2020–2021: 49.4 Million Students

What is a Specific Learning Disability (SLD)?

An **SLD** is a brain-based disorder that affects an individual's ability to read, write, and do math (e.g., dyslexia, dysgraphia, and dyscalculia). Students identified with **SLD** receive special education services under the **Individuals with Disabilities Education Act (IDEA)**, a law that provides a free and appropriate public education to children with disabilities. Of the **13%** of the U.S. school-age population who received disability services under **IDEA** in the 2020–2021 academic year, **34%** received services for **SLD** as the primary disability.
